

Perimeter Security Systems

Giving you advance warning of breaches... on the perimeter, tarmac, terminal, hangar and at fixed based operations.

THE RELIABLE AND AFFORDABLE CHOICE TO PROTECT PERSONNEL, CRITICAL ASSETS AND OPERATIONS

- ✓ **Early warning and situational awareness beyond, between and inside fenced and non-fenced perimeters.**
- ✓ **Infrastructure-free systems that are easy to install, maintain and support.**
- ✓ **Experience in securing airport, aviation facilities and fixed base operations, world-wide.**
- ✓ **Systems tested by National Safe Skies Alliance.**
- ✓ **AAAE Member.**

Protech is a leading manufacturer of perimeter security systems that detect intrusions when every second counts.

OUR PERIMETER SYSTEMS DELIVER

- **EASE OF INSTALLATION:**
Independent barrier, reduced civil engineering or cabling required; fence-mounted solutions installed effortlessly and quickly.
- **RELIABILITY:**
Communication through secure/encrypted radio protocol. Industry-leading high probability of detection.
- **RANGE:**
Wide range of technologies to address the varying requirements of commercial airports, private aircraft facilities and fixed base operations.
